## P R O F I L E

I'm an entry-level software developer with a solid foundation in problem-solving and coding. I'm genuinely enthusiastic about the field and motivated to learn and adapt to new technologies. I'm committed to continuous improvement and eager to collaborate with your team, contributing my skills and a fresh perspective to real-world projects.

### Full Stack Developer

#### Movies wiki

Search and get movie/series details. Textstacks used MongoDB, Express, React, Node Js. API used IMDB api.

#### Front-End

Designed and developed an interactive online resume using HTML, CSS, and JavaScript, with the integration of the HTML2PDF library for PDF generation. Ensured cross-browser and device compatibility with responsive design. Designed the resume to be printer-friendly, with the ability to scale down for A4-sized printing.
