P R O J E C T S

● Full Stack Developer

Movies wiki

Developed a MERN movie app with a RESTful API backend, leveraging an external movie API for data integration. Implemented CRUD operations and ensured secure user authentication with JWT. Deployed the application on a cloud platform for accessibility. Max wake up time 50 secs

[CLICK TO VIEW](#)

Front-End

Built an interactive online resume using HTML, CSS, and JavaScript. It features PDF generation and is responsive for any device or browser. The design ensures clean printing on A4 sized paper.
